PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience in building basic web and mobile applications. Strong foundation in core computer science concepts including OOPs, data structures, and operating systems. Demonstrated ability to work independently and in team environments on academic projects, with a growing interest in application development and secure data handling. Actively seeking entry-level software or internship opportunities to apply and expand technical skills.

TECHNICAL SKILLS

Programming Languages

Java (Basic), Python (Basic), JavaScript (Basic)

Web Technologies

HTML, CSS

Core Computer Science

Data Structures & Algorithms, Object-Oriented Programming, Operating Systems

Databases & Backend

Firebase Realtime Database, Firebase Authentication & Storage (Basic)

PROJECTS

Health Guidance App

Android Application — Individual Project

Tech Stack: Java/Kotlin, Firebase Authentication, Firebase Realtime DB, Firebase Storage, Notifications

- Developed an Android-based health guidance application focusing on secure user authentication and data storage.
- Implemented encrypted data management to protect sensitive health-related information from unauthorized access.
- Integrated Firebase services for backend operations including authentication, database management, and notifications.

Hidden in Plain Sight

Web Application — Team Project

Tech Stack: HTML, CSS, JavaScript

- Contributed to a web-based system designed to send messages in a concealed and non-obvious manner.
- Worked on frontend logic and UI components to enable covert message transmission.
- Collaborated with team members to design and integrate core functionalities.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

AVS Engineering College

Graduation: 2026

CGPA: 7.0 / 10

Current Status: 8th Sem

ADDITIONAL INFORMATION

- Familiar with basic application development workflows.
- Willingness to learn and adapt to new technologies.
- Comfortable working independently as well as in team-based environments.
